Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

Claim Rejections - 35 USC § 112

Claims 35-39 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 35 recites the limitations "said wings", "said needle portion", and "said needle cover portion". There is insufficient antecedent basis for this limitation in the claim.

It is also unclear to the Examiner if the "fastening piece" and the "fastening portion" are the same structure or different structures. It is also unclear to the Examiner as to what structure the "holding portion" is located on because the "holding portion" is currently claimed on both the needle body and the needle cover.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 35-39 are rejected under 35 U.S.C. 102(e) as being anticipated by Maclean Crawford (6,659,984). Maclean discloses a safety winged set comprising a

Art Unit: 3763

needle (14) provided with a needle body (36) and at least one holding portion (38) extending from the periphery of the body and wherein the needle body is fitted with an injection needle (16) at the front end thereof, a winged needle cover (20) where the wings (66) are incorporated into the needle cover and where the wings extend laterally from opposite sides, at least one gliding slot (68) with a front end and a rear end on at least one side of the cover corresponding to the holding portion and at least one fastening piece (72) provided on the needle cover, a first fastening portion (portion with fastening piece) provided on the needle cover to secure the needle within the needle cover where the fastening piece is comprised of a first section (46,48) of the holding portion that correspondingly interlocks with a second section (72) on the needle cover, wherein the device further includes a stopping piece (70), slotted wings, and first and second holding portions.

Response to Arguments

Applicant's arguments with respect to claims 35-39 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

Art Unit: 3763

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
